a standard.*

“We Produce Your Brand!”

About Us

With deep-rooted experience and expertise in the cosmetics industry, we embarked on our journey with a vision focused on quality and trust. By establishing our own brand, we have transformed this accumulated knowledge into a powerful production infrastructure.

In our modern manufacturing facility, we develop innovative, effective, and reliable cosmetic products, while also providing professional contract manufacturing solutions to our business partners.

We meticulously manage every stage of the process—from formulation to production, and from filling to packaging upholding high-quality standards at every step.

Our goal is not merely to manufacture, to provide powerful and sustainable solutions that add value to brands.

By translating the experience gained through our own brand into the success of our partners, we aim to be a reliable and innovative production partner in the industry.

Naturalness, quality, and trust... these are the cornerstones of our production philosophy.

Mission

To produce reliable and effective cosmetic products with high-quality standards; and to add value to our business partners through our innovative formulations and modern production approach.

To meet the needs of brands in the most accurate way by providing fast, flexible, and solution-oriented services in contract manufacturing, guiding them toward strong and sustainable success.

To make a difference in the industry with a production philosophy that respects nature and inspires confidence in people.

Purpose

To offer value-driven products through both our own brand and contract manufacturing services by bringing together quality, trust, and innovation in the cosmetics industry.

To strengthen our partners' brands by developing accurate and rapid solutions for their needs, establishing sustainable and long term collaborations. We aim to leave a lasting mark in the industry by providing consumers with effective and meticulously crafted products they can choose with confidence.

Quality production, strong collaborations, and sustainable success... these are our ultimate goals.

Vision

To become a leading and preferred brand in both national and international markets through our innovative approach, high-quality standards, and reliable manufacturing power in the cosmetics industry.

To become a production powerhouse that contributes to the growth of our business partners through our own brands and private label services, creating a distinct difference in the sector and embracing sustainable success.

To reach a position as a formidable brand that shapes the future of cosmetics by merging technology, naturality, and quality.

Trusted production, an innovative perspective, and global goals... these are the foundations of our vision.

PRIVATE LABEL

With the assurance of ZENAZ, we offer customized private label manufacturing for your brand, where you set the standards and every detail of the formulation and packaging processes is meticulously managed.

CONTRACT MANUFACTURING

As ZENAZ, we bring your products to life based on your own manufacturing and packaging specifications, following your defined standards with a contract manufacturing approach tailored to your brand.

CONTRACT PACKAGING

Contract packaging involves the packaging of products with specifications belonging either to the client or our company according to the desired standards. In this model, where the bulk product is provided by the client, all or part of the packaging materials can be supplied either by the client or by ZENAZ, depending on specific requirements.

R&D (Research and Development)

With the R&D power of ZENAZ, we transform the insights gained from our business partners into innovative products, bringing every formula to life with scientific accuracy and an aesthetic vision. Our entire development process is managed to perfection in our high tech laboratory.
